

# Postdoctoral Positions in Cognitive Neuroscience

**Joint Postdoctoral Positions at the Center for Mind/Brain Sciences (CIMEC—at the University of Trento, Italy) and Harvard University.**

The Center for Mind/Brain Sciences (CIMEC; University of Trento, Italy) in conjunction with the Cognitive Neuropsychology Laboratory (Harvard University, Cambridge, MA) is currently seeking *two* postdoctoral fellows interested in the representation of objects and actions in the brain or the mechanisms of word production. Candidates will have a doctoral degree in psychology, neuroscience, or a related area. Strong candidates will have extensive research experience in designing, implementing, and analyzing either functional neuroimaging studies or studies with brain-damaged subjects. Position requires part-year residence in the U.S. and part-year residence in Italy. Fluency in Italian is not necessary. Expected start date: Fall/winter 2008. Salary commensurate with skills and experience.

Please send inquiries, including curriculum vitae and contact information for three references, to:
